Sven Ohl — Curriculum Vitae (*last update 29. Oktober 2026*)

Contact

Prof. Sven Ohl
Hochschule Magdeburg-Stendal
Osterburger Straße 25
39576 Stendal, Germany

Tel.: (03931) 2187 4828
eMail: sven.ohl@h2.de
mindinaction.de
https://svenohl.wordpress.com

Research interests Eye movements, Visual memory, Attention, Psychophysics, Causality, Statistics

Education

10.09 – 11.13	**PhD from University of Potsdam** (DE)
	Thesis: Small eye movements during fixation: The case of postsaccadic fixation and preparatory influences
	Supervisors: Prof. Reinhold Kliegl & Prof. Stephan A. Brandt
10.05 – 09.09	**Diplom (M.A. equivalent) in Psychology from University of Potsdam** (DE)
	Thesis: Parafoveal-on-foveal effects in reading: A corpus analysis examining the effect of word category in reading
	Supervisor: Prof. Reinhold Kliegl
08.07 – 07.08	**University of California, Berkeley** (US)
	International exchange student
10.03 – 09.05	**Vordiplom (B.A. equivalent) in Psychology from University of Potsdam** (DE)
08.02 – 09.03	**Social Year Abroad, Orbey, Alsace** (FR)

Academic track

since 04.26	**Hochschule Magdeburg-Stendal** (DE)
	Heisenberg-Professor Allgemeine Psychologie
	Mind in Action Lab (mindinaction.de)
since 09.20	**New York University, Berlin** (DE)
	Lecturer in Perception and Cognition (Fall semester)
07.13 – 03.26	**Humboldt-Universität zu Berlin** (DE)
04.24 – 03.26	Junior research group leader (Heisenberg program)
	Mind in Action Lab (mindinaction.de)
	Department of Psychology
05.16 – 03.24	Principal investigator (DFG Project OH274/2-1, and OH274/2-2, *Eigene Stelle*)
05.20 – 08.20	Parental leave (full time)
04.17 – 08.17	Parental leave (full time)
07.13 – 04.16	Postdoctoral research scientist
	Active Vision and Cognition, Prof. Martin Rolfs
05.14 – 09.14	Parental leave (full time)
01.13 – 06.13	**Universitätsklinik Charité** (DE)
	Graduate research scientist (Berlin School of Mind and Brain)
	Department of Neurology, Prof. Stephan A. Brandt
10.12 – 12.12	**University of Potsdam** (DE)
	Graduate research scientist (Berlin School of Mind and Brain)
	Experimental Psychology, Prof. Reinhold Kliegl
10.09 – 09.12	**University of Potsdam, Universitätsklinik Charité** (DE)
	Graduate research scientist (Scholarship by Berlin School of Mind and Brain)
	Supervision by Prof. Reinhold Kliegl and Prof. Stephan A. Brandt
01.08 – 06.08	**University of California, Berkeley** (US)
	Research internship (Prof. Mark D'Esposito, Dr. Andrew S. Kayser)
09.05 – 08.07	**University of Potsdam** (DE)
	Student research assistant (Prof. Reinhold Kliegl)

Preprints and Manuscripts in Revision

1. Vila Ramírez, V., Ohl, S., & Galvez-Pol, A. Cardiorespiratory cycles couple with saccadic eye movements during active visual sampling. *Zenodo*.
2. Shurygina, O., Wirth. L., Rolfs, M., & **Ohl, S.** Space-based and object-based saccadic selection in visual working memory. *bioRxiv*.
3. Sommer, B., Rolfs, M., & **Ohl, S.** Putting causality into context: Causal capture escapes the visual adaptation of causality. *bioRxiv*.

Publications (peer-reviewed)

1. van Zantwijk, L., Rolfs, M., & **Ohl, S.** The Spatial Specificity and Recovery from Visual Adaptation in Causality Perception. *Cognition, in press*.
2. Rolfs, M., Klanke, J.-N., Manjunatha, I., & **Ohl, S.**. (in press). Eye movements and selective processes in cognition: Attention, Working Memory, and Awareness. In C. Klein & U. Ettinger (Eds.), *Eye movement research: An introduction to its scientific foundations and applications (2nd ed.)*. Springer.
3. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (2026). In pursuit of saccade awareness: Limited control and minimal conscious access to catch-up saccades during smooth pursuit eye movements. *Journal of Vision, 26*, 10.
4. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (2025). Microsaccades do not give rise to a conscious feeling of agency for their sensorimotor consequences in visual perception. *Journal of Cognition, 8* (1): 51, 1–22.
5. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (2025). Sensorimotor awareness requires intention: Evidence from minuscule eye movements. *Cognition, 262*, 106176.
6. Rolfs, M. , Schweitzer, R., Castet, E., Watson, T. L., & **Ohl, S.** (2025). Lawful kinematics link eye movements to the limits of high-speed perception. *Nature Communications, 16*, 3962.
7. **Ohl, S.** & Rolfs, M. (2025). Visual routines for detecting causal interactions are tuned to motion direction. *eLife*, 13:RP93454.
8. **Ohl, S.**, Kroell, L. M. & Rolfs, M. (2024). Saccadic selection in visual working memory is robust across the visual field and linked to saccade metrics: Evidence from 9 experiments and more than 100,000 trials. *Journal of Experimental Psychology: General, 153*(2), 544-563.

26. **Ohl, S.**, Brandt, S. A., & Kliegl, R. (2011). Secondary (micro-)saccades: The influence of primary saccade end point and target eccentricity on the process of postsaccadic fixation. *Vision Research, 23-24*, 2340-2347.
27. Rolfs, M. & **Ohl, S.** (2011). Visual suppression in the superior colliculus around the time of microsaccades. *Journal of Neurophysiology, 105*, 1-3.

Funding

2024 – 2027	**DFG Heisenberg Programme** (DFG Grant OH274/5-1) *Vision and memory in action* (Funding can potentially be extended by another 24 months (213,000 Euro)	389,790 Euro
2024 – 2027	**DFG Research Grant** (DFG Grant OH274/4-1) *The elements of causal perception*	251,503 Euro
2019 – 2022	**DFG Research Grant** (DFG Grant OH274/2-2) *Action-based updating of visual short-term memory*	360,560 Euro
2016 – 2019	**DFG Research Grant** (DFG Grant OH274/2-1) *The impact of action on the maintenance of items in visual memory*	312,152 Euro
2015	**Bernstein Network Computational Neuroscience** Sparks Workshop on Active Visual Memory	7,500 Euro
2009 – 2012	PhD Scholarship **Berlin School of Mind and Brain**	51,840 Euro
08.07 – 07.08	**FULBRIGHT** travel grant (for studies at UC Berkeley	
08.07 – 07.08	Scholarship for studies abroad at **UC Berkeley**	
06.06 – 10.08	Scholarship from **Studienstiftung des Deutschen Volkes**	

Honors

04.24	Heisenberg Fellowship
08.22	SR Research Early Career Award for the best talk at ECEM 2022
10.12 – 12.12	Scholarship from the University of Potsdam
08.07 – 07.08	FULBRIGHT travel grant (for studies at UC Berkeley)
08.07 – 07.08	Scholarship for studies abroad at UC Berkeley (German National Academic Foundation)
06.06 – 10.08	Scholarship from Studienstiftung des Deutschen Volkes (German National Academic Foundation)

Invited talks (since 2024)

04.26	Intuitive Physics Workshp at Cambridge University (UK) by invitation from Dr. Mariel Goddu & Prof Mata Halina
05.25	Wilhelm Wundt Gesellschaft
11.24	CCNB Seminar, Freie Universität Berlin (DE) by invitation from Dr. Timo Torsten Schmidt
10.24	Kolloquium, Allgemeine Psychologie, Justus-Liebig-Universität Gießen (DE) by invitation from Prof. Karl Gegenfurtner
05.24	Invited Presentation, Rademaker Lab, Ernst Strüngmann Institute, Frankfurt (DE) by invitation from Dr.Rosanne Rademaker
02.24	BEACON Seminar, Experimental Psychology, University of Oxford (UK) by invitation from Prof. Dejan Draschkow

---

Organization

10.2015	Organization of 7th Bernstein Sparks Workshop: Active Perceptual Memory Co-organized with Dr. Martin Rolfs & Professor Henning Sprekeler Funded by Bernstein Network, DFG and Humboldt-University of Berlin http://www.nncn.de/en/news/events/active-perceptual-memory
08.18 – 03.26	**Ethics committee** Department of Psychology
since 08.2019	**PhD committee** Department of Psychology 08.19, Charley Wu, *Humboldt-Universität zu Berlin* 11.19, Steffen Kluckow, *Humboldt-Universität zu Berlin* 02.23, Anna-Lisa Döring, *Humboldt-Universität zu Berlin* 03.23, Shadi Bagherzadeh-Azbari, *Humboldt-Universität zu Berlin* 08.23, Polina Arbuzova, *Humboldt-Universität zu Berlin* 09.24, Anna Eiserbeck, *Humboldt-Universität zu Berlin* 12.24, Felix Töpfer, *Charité — Universitätsmedizin Berlin* 02.25, Angeliki Charalampaki, *Humboldt-Universität zu Berlin* 02.25, Marika Constant, *Humboldt-Universität zu Berlin* 03.26, Felix Klotzsche, *Humboldt-Universität zu Berlin*
since 06.2025	**Habilitation committee** Department of Psychology 11.25, Günther Fritz, *Humboldt-Universität zu Berlin*

Teaching

09.26 – 12.26	Cognition (6 sessions and supervision) New York University Berlin
04.26 – 07.26	Workspace Perception (14 sessions) Hochschule Magdeburg-Stendal
04.26 – 07.26	Psychology of Attention (14 sessions) Hochschule Magdeburg-Stendal
04.26 – 07.26	Eye movements as a window into the mind and brain (14 sessions) Hochschule Magdeburg-Stendal
04.26 – 07.26	Research methods: Experiment Hochschule Magdeburg-Stendal
04.26 – 07.26	Lernpsychologische Grundlagen (Block seminar) Hochschule Magdeburg-Stendal
04.26 – 07.26	Grundlagen der Allgemeinen Psychologie (14 sessions) Hochschule Magdeburg-Stendal
09.25 – 12.25	Cognition (15 sessions, 180 min each) New York University Berlin
09.24 – 12.24	Cognition (15 sessions, 180 min each) New York University Berlin
10.23 – 02.24	Lecture Allgemeine Psychologie I: Denken und theoretische Grundlagen der Allgemeinen Psychologie (14 weeks) Humboldt-Universität zu Berlin
10.23 – 02.24	Research methods: Experiment (14 weeks) Humboldt-Universität zu Berlin
09.23 – 12.23	Perception (15 sessions, 180 min each) New York University Berlin
04.23 – 07.23	Research methods: Experiment (14 weeks) Humboldt-Universität zu Berlin
04.23 – 07.23	Seminar: Fundaments of the Mind (14 weeks) Humboldt-Universität zu Berlin
10.22 – 02.23	Lecture Allgemeine Psychologie I: Denken und theoretische Grundlagen der Allgemeinen Psychologie (14 weeks) Humboldt-Universität zu Berlin
09.22 – 12.22	Perception (14 sessions, 165 min each) New York University Berlin
09.21 – 12.21	Perception (14 sessions, 165 min each) New York University Berlin
09.20 – 12.20	Perception (30 sessions, 75 min each) New York University Berlin
10.18 – 02.19	Research methods: Observation (14 weeks, 2 hours per week) Humboldt-Universität zu Berlin
04.18 – 07.18	Perception (Guest lecturer, 2 weeks) Humboldt-Universität zu Berlin
04.18 – 07.18	Research methods: Experiment (Teaching assistant) Humboldt-Universität zu Berlin
12.17	Ringvorlesung Cognitive Science (Guest lecturer, 1 week) Humboldt-Universität zu Berlin
09.16 – 01.17	Descriptive Statistics and Probability Theory (14 weeks - 3 hours per week) at Hochschule Fresenius - University of Applied Sciences, Berlin
09.16 – 01.17	Excercises in Descriptive Statistics and Probability Theory (14 weeks - 1 hour per week) at Hochschule Fresenius - University of Applied Sciences, Berlin
09.15 – 01.16	Descriptive Statistics and Probability Theory (14 weeks - 3 hours per week) at Hochschule Fresenius - University of Applied Sciences, Berlin
09.15 – 01.16	Excercises in Descriptive Statistics and Probability Theory (14 weeks - 1 hour per week) at Hochschule Fresenius - University of Applied Sciences, Berlin

Grants

Deutsche Forschungsgemeinschaft (DFG)
Agence nationale de France (ANR)
Israel Science Foundation (ISF)
National Science Foundation (NSF)
Deutschlandstipendium (2024 – 2025)
Doctoral fellowships at Berlin School of Mind & Brain Berlin (ECN)
Doctoral fellowships at Einstein Center for Neurosciences Berlin (ECN)
Postdoc Network *Cognitive Conflicts during Media Use*

Supervision

PhD Students

since 08.24 Laura van Zantwijk (PhD Student, *Humboldt-Universität zu Berlin*)
since 10.24 Inchara Manjunatha (PhD Student, *Berlin School of Mind and Brain*)

Lab Development

since 10.26 Josua Wertum(University of Applied Science Magdeburg-Stendal)

Thesis supervision

09.25 – 06.26 Lara Ramp (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
09.25 – 07.26 Laura Ackermann (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
09.25 – 07.26 Maria Fischer (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
02.25 – 10.25 Mathilda Maier (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
02.25 – 09.25 Leonard Kempgens (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
01.25 – 10.25 Ben Sommer (Master's Thesis, *Humboldt-Universität zu Berlin*)
06.24 – 01.25 Lina Schulz (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
04.24 – 12.24 Anna Seiler (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
04.24 – 10.24 Lisa Reinhold (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
04.23 – 10.23 Ben Sommer (Bachelor's Thesis, *Humboldt-Universität zu Berlin*)
09.21 – 09.22 Laura Wirth (Master's Thesis, *Humboldt-Universität zu Berlin*)
03.20 –09.20 Lara Mbaye (Bachelor Thesis, *Medical School Berlin*)
01.19 – 09.19 Luca Schulze Buschoff (Bachelor Thesis, *Universität Osnabrück*)
11.18 – 06.20 Susie Bryan (Master's Thesis, *Freie Universität Berlin*)
10.18 – 09.19 Susan Kang (Master's Thesis, *Freie Universität Berlin*)
11.17 – 02.19 Bea Keweloh (Bachelor Thesis, *Freie Universität Berlin*)
06.17 – 09.17 Jan Klanke (Master's Thesis, *Berlin School of Mind & Brain*)

Student assistants

since 11.26 Neele Paschke(Humboldt-Universität zu Berlin)
since 10.26 Luise Wessel(University of Applied Science Magdeburg-Stendal)
since 10.26 Lara Wöhmann(University of Applied Science Magdeburg-Stendal)
05.24 – 03.26 Siri Tappesser (*Humboldt-Universität zu Berlin*)
10.21 – 05.23 Antonia Keller (*Humboldt-Universität zu Berlin*)
02.21 – 05.23 Annick Langlois (*Freie Universität Berlin*)
10.21 – 09.22 Laura Wirth (*Humboldt-Universität zu Berlin*)
07.21 – 09.22 Mara Doering (*Humboldt-Universität zu Berlin*)
02.21 – 05.21 Jakob Erhard (*Humboldt-Universität zu Berlin*)
03.20 – 10.20 Lara Mbaye (Bachelor Thesis, *Medical School Berlin*)
03.20 – 09.20 Alice Rollini (*Humboldt-Universität zu Berlin*)
02.20 – 01.21 Tobias Richter (*Humboldt-Universität zu Berlin*)
10.17 – 03.19 Olga Shurygina (*Berlin School of Mind & Brain*)
06.17 – 09.19 Jan Klanke (*Berlin School of Mind & Brain*)
04.16 – 09.17 Clara Kuper (*Freie Universität Berlin*)

Internships & lab rotations

01.26 – 03.26 Tessa Chambon (*Utrecht University*)
09.25 – 03.26 Gamze Kahyaoglu (*Utrecht University*)
05.21 – 08.21 Serena Luckhoff (*Rutgers University, New Jersey*)
10.19 – 03.20 Anna Melkonyan (*Bernstein Center for Computational Neuroscience, Berlin*)
08.19 – 12.19 Adu Matory (*Bernstein Center for Computational Neuroscience, Berlin*)
08.18 – 10.18 Luca Schulze Buschoff (*Universität Osnabrück*)
05.18 – 07.18 Reema El-Kaiali (*NYU Abu Dhabi*)
04.16 – 09.17 Nicole Kostosky (Internship, *Washington & Jefferson College Pennsylvania*)

Presentations

1. van Zantwijk, L., Fischer, M., Maier, M., & **Ohl, S.** (August, 2026). Does the visual adaptation of causality spread across objects? *European Conference on Visual Perception*, Bournemouth, England.
2. Manjunatha, I., Ortego,K., Stoermer, V., **Ohl, S.**, & Rolfs, M. (May, 2026). The impact of recent saccades & timing on ensemble perception. Annual Meeting of the Vision Sciences Society, *VSS*, St. Pete Beach (FL), USA.
3. Sommer, B., Rolfs, M., & **Ohl, S.** (March, 2026). Causal Illusions: Visual Adaptation of Causality via Perceptual Grouping. *Tagung experimentell arbeitender Psychologen*, Tübingen, Germany.
4. Manjunatha, I., Ortego,K., Stoermer, V., **Ohl, S.**, & Rolfs, M. (August, 2025). The Impact of Foveation on Ensemble Perception. *European Conference on Visual Perception*, Mainz, Germany.
5. Klanke, J.-N., **Ohl, S.**, Esen, A. N., & Rolfs, M. (August, 2025). FEyes on Target, Awareness off Course: Limited Control and Detection of Catch-Up Saccades during Pursuit Eye Movements. *European Conference on Visual Perception*, Mainz, Germany.
6. Klotzsche, F., de Mooij, J., **Ohl, S.**, & Gaebler, M. (June, 2025). EDIA: An Open-Source Toolbox For Virtual Reality-Based Experiments Using Unity. *Psychologie und Gehirn*, Frankfurt am Main, Germany.
7. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (May, 2025). Feeling of agency in visual actions? No evidence for effect binding in microsaccades. Annual Meeting of the Vision Sciences Society, *VSS*, St. Pete Beach (FL), USA.
8. Sommer, B., Rolfs, M., & **Ohl, S.** (March, 2025). Context events bypass the influence of visual adaptation on the perception of causality. *Tagung experimentell arbeitender Psychologen*, Frankfurt am Main, Germany.
9. van Zantwijk, L., Rolfs, M., & **Ohl, S.** (March, 2025). The spatial specificity and recovery of visual adaptation in causal perception. *Tagung experimentell arbeitender Psychologen*, Frankfurt am Main, Germany.
10. **Ohl, S.**, & Rolfs, M. (May, 2024). What Newton did not know about Newton's cradle: Separating visual routines for cause and effect. *Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
11. Klotzsche, F., Gaebler, M., Villringer, A., Sommer, W., Nikulin, V., & **Ohl, S.** (May, 2024). Assessing and comparing eye tracking performance in virtual-reality headsets: A test battery. *Psychologie und Gehirn, PuG*, Hamburg, Germany.
12. Klotzsche, F., Kastrinogiannis, A.Gaebler, M., & **Ohl, S.** (March, 2024). Assessing and comparing eye tracking performance in virtual-reality headsets: A test battery. *11th MindBrainBody Symposium*, Berlin, Germany.
13. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (March, 2024). In pursuit of saccade awareness. *Tagung experimentell arbeitender Psychologen*, Regensburg, Germany.
14. **Ohl, S.**, & Rolfs, M. (May, 2023). Feature-selective mechanisms that underlie the perception of causality. Annual Meeting of the Vision Sciences Society, *VSS*.
15. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (May, 2023). Different levels of awareness for spontaneous, involuntary, and voluntary microsaccades. Annual Meeting of the Vision Sciences Society, *VSS*.
16. **Ohl, S.** (August, 2022). What the variations in saccade metrics and visual memory across the visual field tell about saccadic selection in visual working memory. Presented at the *European Conference on Eye Movements*, Leicester, UK.
17. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (May, 2022). Seeing the unconscious? Limited awareness for involuntary microsaccades. Annual Meeting of the Vision Sciences Society, *VSS*.
18. **Ohl, S.**, & Rolfs, M. (May, 2021). Visual adaptation reveals a direction-specific tuning in causal perception and a transfer across speeds. *Tagung experimentell arbeitender Psychologen*, Virtual/Jena, Germany.
19. Wirth, L., Shurygina, O., Rolfs, M., & **Ohl, S.** (March, 2022). Support for spatial rather than object-based saccadic selection in visual short-term memory. *Tagung experimentell arbeitender Psychologen*, Virtual/Jena, Germany.
20. **Ohl, S.**, & Rolfs, M. (May, 2021). Causality detection in the visual system is tuned to motion direction. Annual Meeting of the Vision Sciences Society, *v-VSS*.
21. Klotzsche, F., Gaebler, M., Villringer, A., Sommer, W., Nikulin, V., & **Ohl, S.** (May, 2021). Contralateral delay activity and induced alpha power are modulated by memory load independently of stimulus eccentricity in a virtual reality setup. Annual Meeting of the Vision Sciences Society, *v-VSS*.

22. Klanke, J.-N., **Ohl, S.**, & Rolfs, M. (May, 2021). Accurate perception of stimuli briefly stabilized on the retina during microsaccades. Annual Meeting of the Vision Sciences Society, *v-VSS*.
23. Rolfs, M., Schweitzer, R., & **Ohl, S.** (May, 2021). Lawful kinematics of saccades predict the limits of high-speed motion perception. Annual Meeting of the Vision Sciences Society, *v-VSS*.
24. Klanke, Jan-Nikolas, **Ohl, S.**, & Rolfs, M. (August, 2019). Rendering the invisible visible during microsaccades. *European Conference on Eye Movements*, Alicante, Spain.
25. **Ohl, S.**, & Rolfs, M. (May, 2019). Time-dependent saccadic selection in analogue and categorical visual short-term memory tasks. *19th Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
26. **Ohl, S.** (August, 2018). Secondary saccades beyond error correction. *European Conference on Visual Perception*, Trieste, Italy.
27. Keweloh, B, **Ohl, S.**, & Rolfs, M. (August, 2018). From icons to categories: The format of visual memory representations is task-dependent. *European Conference on Visual Perception*, Trieste, Italy.
28. **Ohl, S.**, & Rolfs, M. (August, 2017). Multiple saccades enhance spatial specificity of resource allocation in visual short-term memory. *European Conference on Visual Perception*, Berlin, Germany.
29. Kunzendorf, S., Klotzsche, F., Akbal, M., Villringer, A., **Ohl, S.**, & Gaebler, M. (August, 2017). The influence of cardiac signals on visual sampling and memory performance. *European Conference on Visual Perception*, Berlin, Germany.
30. Kuper, C., **Ohl, S.**, & Rolfs, M. (August, 2017). Perceptual orientation tuning before saccades. *European Conference on Visual Perception*, Berlin, Germany.
31. Kunzendorf, S., Klotzsche, F., Akbal, M., Villringer, A., **Ohl, S.**, & Gaebler, M. (June, 2017). The influence of cardiac signals on visual sampling and memory performance. *Aegina Summer School 2017 – The Social Brain*, Aegina, Greece.
32. Rolfs,M., **Ohl, S.**, Schweitzer, R., Castet, E., & Watson, TL. (May, 2017). Object motion thresholds are amplitude-contingent and tuned to specifically eliminate retinal motion produced by saccades. *17th Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
33. Watson, TL, Schweitzer, R., , Castet, E., **Ohl, S.**, & Rolfs, M. (May, 2017). Intrasaccadic localisation is consistently carried out in world-centered coordinates. *17th Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
34. **Ohl, S.**, & Rolfs, M. (March, 2017). Saccades impose priorities on visual short-term memory independently of memory load. *Tagung experimentell arbeitender Psychologen*, Dresden, Germany.
35. Kunzendorf, S., Akbal, M., Klotzsche, F., Villringer, A., **Ohl, S.**, & Gaebler, M. (March, 2017). The influence of cardiac signals on visual sampling and memory performance. *6th Mind, Brain, & Body Symposium*, Berlin, Germany.
36. Kuper, C., **Ohl, S.**, & Rolfs, M. (September, 2016). Perceptual orientation tuning before saccades. *12th Bernstein Conference*, Berlin, Germany.
37. **Ohl, S.**, & Rolfs, M. (May, 2016). Saccades inevitably protect visual memory traces. *16th Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
38. Kalogeropoulou, Z., Jagadeesh, A., **Ohl, S.**, & Rolfs, M. (May, 2016). Shifting feature-based attention in visual short-term memory. *16th Annual Meeting of the Vision Sciences Society*, St. Pete Beach (FL), USA.
39. **Ohl, S.** (March, 2016). Bodily influence on visuomotor functioning: Coupling of heartbeat and microsaccades. *Mind, Brain, & Body Symposium*, Berlin, Germany.
40. **Ohl, S.**, & Rolfs, M. (October, 2015). Saccades inadvertently determine the content of visual short-term memory. *Active Perceptual Memory Workshop*, Berlin, Germany.
41. Kalogeropoulou, Z., **Ohl, S.**, & Rolfs, M. (October, 2015). Changing priorities in Visual Short-Term Memory. *Active Perceptual Memory Workshop*, Berlin, Germany.
42. **Ohl, S.**, & Rolfs, M. (August, 2015). Saccadic influences on vision beyond early stages of sensory encoding. *European Conference on Eye Movements*, Vienna, Austria.
43. **Ohl, S.**, & Rolfs, M. (March, 2015). Separating influences of sensory stimulation and memory load in a visual short-term memory task. *Tagung experimentell arbeitender Psychologen*, Hildesheim, Germany.

44. Kalogeropoulou, Z., **Ohl, S.**, & Rolfs, M. (August, 2014). Tuning in: How attention to motion direction shapes visual sensitivity across time. *European Conference on Visual Perception*, Belgrade, Serbia.

45. Rolfs, M., & **Ohl, S.** (May, 2014). Moved here and forgot there: Saccades deteriorate visual short-term memory for non-target locations. *14th annual meeting of the Vision Sciences Society*, St. Petersburg (FL), USA.

46. Cassanello, C., **Ohl, S.**, & Rolfs, M. (May, 2014). Saccadic plasticity induced by a periodic disturbance of visual feedback. *14th annual meeting of the Vision Sciences Society*, St. Petersburg (FL), USA.

47. **Ohl, S.**, & Rolfs, M. (April, 2014). Saccades deteriorate visual short term memory for non-target locations *Tagung experimentell arbeitender Psychologen*, Giessen, Germany.

48. Cassanello, C., **Ohl, S.**, & Rolfs, M. (April, 2014). Saccadic adaptation following a periodic disturbance of visual feedback. *Tagung experimentell arbeitender Psychologen*, Giessen, Germany.

49. De Beukelaer, S., Hamel, J., Bahnemann, M., **Ohl, S.**, Kehrer, S., Audebert, J., Kraft, A., & Brandt, S. A. (March, 2014). Classification of visual exploratory behavior in patients with homonymous hemianopia. Poster presented at the *58. Jahrestagung der Deutschen Gesellschaft für Klinische Neurophysiologie und funktionelle Bildgebung (DGKN)*.

50. **Ohl, S.**, Brandt, S. A., & Kliegl, R. (August, 2013). Immediate preparatory influences on microsaccades before saccade onset to endogenously vs. exogenously defined targets. Poster presented at the *European Conference on Visual Perception*, Bremen, Germany.

51. **Ohl, S.**, Brandt, S. A., & Kliegl, R. (March, 2013). The generation of secondary (micro-)saccades in the absence of post-saccadic visual feedback. *Tagung experimentell arbeitender Psychologen*, Vienna, Austria.

52. **Ohl, S.**, Brandt, S. A., & Kliegl, R. (September, 2012). Post-saccadic location judgements after presentation of multiple target-like objects. Poster presented at the *European Conference on Visual Perception*, Alghero, Italy.

53. Hamel, J., Kraft, A., **Ohl, S.**, De Beukelaer, S., Audebert, J., & Brandt, S. A. (April, 2012). Die Fahrsimulation in der Klinik: Ein Testverfahren für visuelles Explorationsverhalten von Patienten mit Hemianopsoie im Alltag. Poster presented at the *56. Jahrestagung der Deutschen Gesellschaft für Klinische Neurophysiologie und funktionelle Bildgebung (DGKN)*.

54. De Beukelaer, S., Hamel, J., Kraft, A., **Ohl, S.**, Auderbert, J., & Brandt, S. (April, 2012). Veränderung visueller Strategien und des Fahrverhaltens im Alter. Poster presented at the *56. Jahrestagung der Deutschen Gesellschaft für Klinische Neurophysiologie und funktionelle Bildgebung (DGKN)*.

55. **Ohl, S.**, Brandt, S. A., & Kliegl, R. (August, 2011). Target eccentricity and saccadic error influence the latency, amplitude and orientation of secondary (micro-)saccades. Presented at the *European Conference on Eye Movements*, Marseille, France.

56. **Ohl, S.**, & Kliegl, R. (March, 2009). Parafoveal-on-foveal effects in reading vary as a function of word category. *Tagung experimentell arbeitender Psychologen*, Jena, Germany.
